About This Book

Welcome to S.P.R.U.N.G., the Society for the Pursuit of the Reputedly Undead, Namely Ghosts!

The *Ghostkeeper's Journal* is a completely new book-and-app experience which takes readers into a magical world of ghosts and spirits. Powerful new Augmented Reality effects lets them follow the story through the Journal, then view the pages through the Ghost-o-Matic app to see pictures move, reveal hidden messages, and trap dangerous phantoms.

Ag has disappeared and this journal is the key to rescuing him. But beware...the moment this book is opened, the ghosts Ag trapped inside will be released. It's up to keen readers to recapture the ghosts and solve the mystery...without disappearing themselves!
